Manufacturers offered various color options over the years, often aligning with golf courses' branding or personal preferences. The minimalistic design makes it easy to customize or upgrade if desired.

Engine and Powertrain

The Gas Engine

At the heart of the EZ GO Marathon is a reliable gas-powered engine, typically a 4-cycle, single-cylinder engine produced by providers like Kawasaki or Briggs & Stratton. These engines are known for their durability and ease of maintenance.

Key specifications include:

Handling and Ride Quality

Thanks to its wide wheelbase and low center of gravity, the Marathon provides stable handling on various terrains, including hilly or uneven surfaces. The suspension system typically includes leaf springs at the front and rear, absorbing shocks and ensuring a comfortable ride.

The cart's steering is straightforward, with a simple rack-and-pinion system that offers good responsiveness. Its moderate speed and maneuverability make it easy for operators to navigate crowded or tight spaces.
