This evolution reflects the recognition that employees are vital assets whose management directly influences organizational performance.

2. Strategic HRM vs. Traditional HRM

Stone's analysis delineates between traditional and strategic HRM:

- Traditional HRM: Focused on administrative tasks, compliance, and routine personnel management.

The shift toward strategic HRM involves viewing employees not merely as costs but as strategic resources capable of delivering sustained value.

Core Functions of Human Resource Management

Stone suggests that organizations should adopt transparent and equitable compensation strategies that motivate employees while aligning with organizational capacity.

5. Employee Relations and Engagement

By aligning HR initiatives with business objectives, organizations can better anticipate workforce needs, foster a culture of continuous improvement, and adapt to market changes swiftly.

2. Talent Management and Succession Planning
